Doing Our Part

What Is EasyAppsOnline?

EasyAppsOnline is a web-based health insurance application processing system and employee benefit management system. EasyAppsOnline provides access 24 hours a day 7 days a week making pre-screening and open enrollment as Easy as 1-2-3.

- Employees enroll online with an electronic signature
- Company Health Administrators can monitor enrollment progress, run reports, complete their Employer Application and utilize HR tools
- Brokers will automatically be able to view completed apps and use a portal to submit to the various insurance carriers
- Insurance underwriters love our easy-to-read applications
- HR functions include: employee health references, compensation reports, and custom surveys

EasyAppsOnline facilitates the process of insurance enrollment. Application forms are pre-populated with basic employee information. Other data is completed by selection from drop-boxes to reduce typing and information errors. When the employee has completed the form they will click the "Submit" button, which then populates multiple insurance applications, making pre-screening a breeze. Applicant data is printed, making all information legible and all required fields populated. The insurance applications are immediately available for the broker to review. The broker can then notify the various carriers that the applications are ready for downloading and processing. This process greatly reduces the time required to pre-screen or perform an open enrollment.

For more information about getting started contact us at 1-888-563-4474.

Who Benefits From EasyAppsOnline?

Brokers

The Broker can add companies, employees, and manage all of them with ease. They can also respond to customers, run reports, and manage information like never before.

Companies

The Company level is similar to the Broker, except that you manage the employees in your company and your company information. You can monitor employee enrollment, maintain employee data, and stay on top of your company's insurance, all without a single piece of paper.

Employees

Employees can enroll, input information, and modify their information with ease. What's great about EasyAppsOnline is how simple it is for employees to fill out an unlimited number of insurance applications automatically after filling out one simple form.

Insurance Providers

Insurance providers can log into EasyAppsOnline through an insurance portal that enables providers to download completed applications from the broker quickly and easily. All applications are populated with user data in an easy-to-read format, facilitating the application process for underwriters.

Product Features:

- One generic form will pre-populate multiple health insurance carrier applications including dental, vision, and life.
- Information is archived for the user so next year's enrollment is even easier - it's a simple matter of reviewing the data and making updates as needed.
- Electronic signature provides a paperless pre-screening and enrollment process.
- Quick census upload link for Brokers to pre-populate employee applications.
- Client HR portal provides Enrollment and Exception Reports to track enrollment progress of employees and the ability to complete the Employer Application online.
- EasyAppsOnline System is customized with your branding and linked to your web site making a seamless integration for employees.
- Free training.
- Sites can be up and running within one week.
- Live customer support.
